<u>User Guide for TruthAngel.html</u>

1. Open the file <u>TruthAngel.html</u>

- Just double-click **TruthAngel.html** to open it in your browser.
  (No install, no login, no tracking.)
- How To Use instructions and a Help button are located at the top of the page.
  - The Help button takes you to a download site where you can find this file.

2. LLM address (where you will paste the prompt)

- The default is https://claude.ai/new
- If you want to use a different LLM, just type or copy that address here.
  - To find your AI url:
    - use your browser to navigate to your AI,
    - then copy and paste the address into the LLM address box.
    - TruthAngel remembers it.
- Then click the **OpenAI** button below the LLM box to launch the LLM in a new tab.

3. Context Sets

1. Select a Category from the dropdown menu, they are:
   - Human Knowledge
   - Current Events
   - Practical Skills
   - Personal & Life
   - Critical Thinking
2. Select a Context Set from the dropdown and the press the green "Load Context Set" to load.
3. Click or type in the optional Sub-context box to select a sub-context.

4. Your question

- Type your question and then press "**Generate TruthAngel Prompt".**
- **Notice that your question contains both context fields plus complete instruction to the AI**

5. Generated TruthAngel Prompt

- **The Generated TruthAngel Prompt contains**
  - Your question
  - Main Context
  - Sub-Context (if present)
  - And complete instructions to your AI

6. Select the LLM response language if necessary

TruthAngel will only generate prompts in English,
but TruthAngel can require the LLM to respond in **any language you choose**.

Default is English, but you can choose Arabic, Spanish, German, Japanese, etc.

7. Click: Copy Prompt to Clipboard.

- The TruthAngel prompt is placed on your clipboard.

8. Go to your AI tab, start a fresh chat, and paste it as *the very first message*.

After that, simply ask your follow-up questions normally — the AI will now answer in the TruthAngel style.

If you want to clear the TruthAngel context from your AI,
just press the green "Clear Conversation Context" button below the prompt box
and copy over to your AI.

What the TruthAngel Prompt Makes the AI Do:

The generated prompt instructs the AI to:

- explain clearly
- avoid manipulation
- present multiple viewpoints
- acknowledge uncertainty
- cite reputable, non-fictional sources
- give follow-up questions
- speak with respect and compassion

This consistently produces answers than are

- calmer
- clearer
- more balanced
- more intelligent
- more ethical

than the default AI responses.

⚙️ Features Built Into the App

(All visible in the HTML code — no external scripts.)

- Main and Sub-Categories encompass almost the entirety of human knowledge
- Works completely offline
- No data collection
- No servers

And the very best part?
